About Company

Imtiaz Ariana General Trading is a multinational company with a strong infrastructure that spans across 3 continents and 5 countries. Throughout our 20-year history, we have marketed over 1 million of tonnes of commodities worth over 400 million dollars. We are operating in more than 15 countries and appear a great asset to emerging economies and developing markets, as well as strong contributors to economic stability in developed economies.

From pioneering agriculture commodity supply chain in Central Asia to redefining the landscape of flour trade in Europe, we are proudly continuing to invest in our corporate structure, bringing innovation, people and expertise at the heart of what we do.

Welcome Message

Ustad Rahimullah Shahsawar
Chairman

At Imtiaz Ariana General Trading, our vision resonates far beyond just trading products– it's about forging connections, facilitating progress, and nurturing partnerships on a global scale. With a strong presence across our regional offices in the UAE, UK, Europe, Kazakhstan, and Afghanistan, we have access to most important locations around the globe.

In a world faced with unprecedented challenges, we recognize the critical role we play. Our commitment to excellence is magnified as we navigate the intricate web of global supply chain challenges. Through resilience and innovation, we ensure that our customers receive not only products but also reliability, even in the face of adversity.

The pressing issue of food shortage amplifies our responsibility. We understand the significance of our role in ensuring that essential commodities reach the corners of the world where they are needed most. With every trade, we strive to bridge the gap between demand and supply, contributing to communities we serve.

Imtiaz Ariana General Trading stands as a beacon of trust, serving as a dependable partner for our customers and collaborators. Together, we embark on a journey where trade transforms into connectivity, transactions evolve into relationships, and commerce paves the way for progress.

Let's continue to explore new horizons, embrace challenges, and create a future where the world is woven closer together through trade.

Thank you,

IMTIAZ ARIANA

What We Do

At the heart of Imtiaz Ariana General Trading, is the fully integrated business model that has been in making for the past two decades. Throughout its development, we have enriched our global network of partners, expanded our infrastructure and sharpened our expertise. In the past 4 years alone, we have expanded our business to more than 5 countries, a strategic move that has been fueled by our mission to serve the community

Our global operation sits on the robust infrastructure that covers the Middle East, East Asia, Europe and Central Asia. It serves as the backbone of our efficiency, reliability and profitability, and contributes to our goal of being closer to our partners, consumers and suppliers. With this approach to international trade, we have achieved a superior position in the world of global trade, outperforming the competition on the speed and quality of the decision-making.

Global Presence

Today, we are one of the leading companies in agriculture commodity trade in Central Asia and East Asia. This is facilitated by our direct presence in the North and South of Kazakhstan, as well as in Central and Northern Afghanistan. Our agriculture supply chain is distinguished by our expertise in the milling and crop harvesting business, and backed by the team of experts that guide the day-to-day decision-making,

Through our direct presence in Poland and the United Kingdom, we are bringing our expertise to the new territories. We have launched the supply chain of high-quality flour in the United Kingdom and established a robust network of processors and consumers for our oilseeds commodity supply. We are redefining the landscape of the agriculture industry in Europe, by blending in with the local industry values and driving value to our European partners.

Our corporate presence in UAE, with the head office in Dubai, manages the trade flow across Middle East and some parts of Central Asia. A strategically sound location of our Dubai base enhances our strategic position and allows us to meet the growing demand for agricultural, energy and metal commodities in this region. Our corporate branch in UAE is focused on adding new types of commodity groups to its portfolio, which reflects the growing nature of the economy that this region sees.

Team

IMTIAZ ARIANA
GENERAL TRADING

While the company's extensive portfolio of trading activities is undeniably impressive, it is the dedicated and skilled team of professionals that stands as the driving force behind its continued prosperity. Imtiaz Ariana International Trading Company proudly upholds the principle that its employees are the cornerstone of its thriving future.

We have assembled a team of over 30 seasoned professionals, each possessing a wealth of knowledge and experience in various facets of international trade. This dynamic group of experts collaborates within a supportive and cohesive environment, working harmoniously to create value in the global commodity market. The team's diversity in terms of skills, backgrounds, and expertise ensures Imtiaz's strong competitive advantage:

The phenomenal success of Imtiaz International Trading Company is a testament to the dedication, expertise, and unwavering commitment of its exceptional team of professionals. As Imtiaz Ariana General Trading Company continues to flourish in the global commodity market, the company's core belief that its employees are the driving force behind its prosperous future remains unwavering. The company's diverse and collaborative team stands at the forefront of its achievements, ensuring the company's continued growth, reputation, and status as a respected leader in the international commodity trading arena.

Sustainability

In an era characterised by growing environmental awareness and the urgent need to address climate change, we strive to align with a broader commitment to sustainability and responsible resource management. By integrating sustainable practices into our operations, our business activities not only contribute to a more ecologically balanced world but also enhance their long-term profitability and reputation.

Supply Chain Transparency

We implement transparent supply chain practices that helps us identify inefficiencies, unethical practices, and opportunities for improvement. We strive to integrate the latest technologies that provides an immutable record of a commodity's journey from source to consumer.

Responsible Sourcing

We consider factors such as environmental impact, labour conditions, and community well-being. We have built a robust set of criteria for responsible sourced commodities, which we communicate to our suppliers on a systemic basis.

Energy Efficiency

We strive to reduce the carbon footprint of trading operations by adopting energy-efficient technologies and practices. We Invest in renewable energy sources for warehouses, offices, and transportation that significantly lowers greenhouse gas emissions.

Stakeholder Engagement

We engage with local communities, environmental organisations, and regulatory bodies. With this proactive approach, we strive to prevent conflicts, promote sustainable development, and ensure compliance with evolving regulations.
